

Effortless Tenders. Endless Opportunities.

The Problem we solve

Lost Time & Missed Chances

Highly qualified sales teams waste valuable time manually screening fragmented portals and analyzing complex documents. This administrative drain leads to slow reaction times and missed global opportunities.

Our Solution

AI-Powered Tender Automation

masernet automates complex tender processes so your teams can focus entirely on winning.

Global Scale

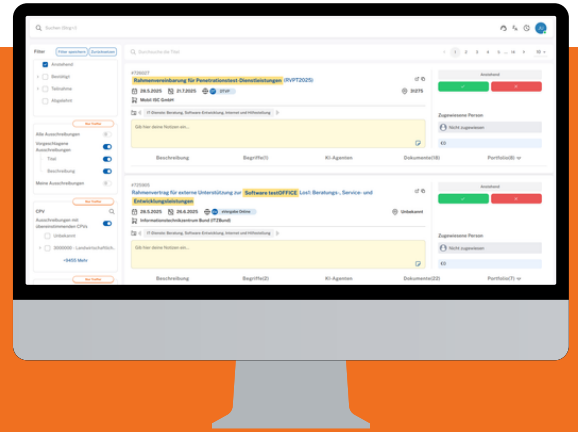

We scan 700+ portals in 60+ markets daily, capturing over 10,000 new tenders every day.

Laser-Focused Relevance

Custom AI models built for your company ensure you only see what matters.

Market Intelligence

Access a searchable archive of over 1.5 million tenders, including insights on ~350,000 past winners to guide your strategy.

Deep Insights

Automatic document analysis, an interactive AI Tender-Chat, and filtering based on budget and award criteria.

Seamless Workflow

CRM integration and team collaboration tools map perfectly to your existing ecosystem.

The Impact

Stop screening portals and start writing winning bids.

90% Reduction in manual screening time

30% Faster bid response times

0 Missed global opportunities

Launch Your Pilot

Test masernet in a single market with one team.

 **Fast Setup:** Zero IT integration required.

 **Immediate Value:** First relevant results within days.

 **Risk-Free:** Free trial phase available to prove the ROI.
